

Guess Me Game

Understand-

Inputs- user_guess

Outputs- Correct – Congratulations, number of guesses

Too Low – Try again

Too High – Try again

Run out of guesses – Show answer, better luck next time

Error – Please enter a number from 1 to 100

Constraints: user_guess must be a number from 1 to 100

Rules: give hints after each guess

Desk Checks:

user_guess result

d Please enter a number

150 Number must be between....

All wrong guesses The answer is..... Better luck next time!

50 Too high, too low until right number is guessed
